WHISKEY & BOURBON

CITRUS DISTILLERS - Jacksonville Florida

Founded by Master Distiller Dustin and Niki Skartved. Starting in Rivera Beach in 2012 they built a thriving operation. In need of more space they relocated to an 18,000 SF warehouse in the Rail District of Jacksonville. Pioneering the Flavored Whiskey market they have been recognized with many industry awards, most recently being named one the Top 10 Finest Whiskey Brands to Try in 2021.

VODKA

SCOVILLE VODKA - Saint Augustine

Founded Gregory Anderson and his fiancé Dr. Deidrea Leake. They loved drinking Jalapeno cocktails, but found them wildly inconsistent and sometimes with bits of peppers lurking about in the glass. That's when they came up with Scoville Jalapeno Vodka. Distilled 11x to ensure there is no alcohol burn which provides for the clean spirit infusion of real Jalapeno. Scoville is the Vodka you can Feel!

CHAINBRIDGE DISTILLERY - Oakland Park Florida

With family roots in the well-known Tokaj wine region of the northeastern border of Hungary and Slovakia the Nahori family opened a distillery operation in Oakland Park Florida. Along with wine, the family grew up with the Hungarian culture of "Pálinka" Eau De Vie style Fruit Brandy. They are bridging the same European Brandy culture and other unique innovative spirits in South Florida. Using only fresh Florida fruits, vegetables and herbs to make their craft products, they are a true craft distillery.

GIN

HOUSE OF ELRICK - Scotland

The only artisan, small batch gin distillery that uses fresh, filtered water straight from Loch Ness, with wild heather and the dried petals of the Jacobite rose – all synonymous with Elrick House. Botanicals hand-picked by our Master of Gin are a compliment of juniper, coriander seeds, angelica root and citrus peel, built around a core of heather, pink peppercorns, sweet fennel and rose petals. As refreshing as it is aromatic.

Sandra Gutierrez works integrating her life at her service, to find the path to true Well-being. This guide will take us to a state of preparation of body and mind in harmony, to feel each drink, thank the Water, Earth and Agave, which accompanied his life and growth by drinking La Reina®.

Located at an altitude of 1655 meters above sea level, Atenguillo is a Sierra Madre occidental municipality belonging to the state of Jalisco. Home of dedicated people, natural source water and a beautiful landscape, this Mexican town honors tradition and brings a legacy back to life with the unique touch of true craftsmanship.

The agave used in La Reina® raicilla (raicilla de la sierra) production is agave maximiliana. This kind of agave is a unique endemic species that prefers the hilly shady areas for the sierra to grow.

In this region regulations say only 10% of the regions agave can be harvested, so this happens when the rainy season is over and agaves are no longer bloated. Agave maximiliana only reproduce from the seeds of the quiote (stalk), this means it does not produce hijuelos (baby clones that sprout from the roots) like many other types of agave.

Seltzers

Montauk Distilling Company

Founded in August 2013. It's a distillery located in Riverhead, NY on the north fork of Long Island. We handcraft, distill and bottle in small batches yielding an exclusive taste.

Made from the clearest purified water from the Montauk Distilling Co., it is mixed with our MODICO vodka to give it that extra 5% ABV tail flip you'd expect from a hard seltzer.

After that, we infuse it with fruits and local botanicals to make the most pure and desirable tasting water on the market. How desirable? Just ask the mermaids.
